WORK EXPERIENCE

HP Inc
Technical Business Analyst, Memory and Storage Teams   Houston, TX
                                                                                                  May 2024 – August 2024

• Lead the strategic initiative and collaborated with a team of 5 to migrate data into the cloud supporting the company's digital transformation efforts, which resulted in a 30% increase in productivity
• Conducted 6 employee interviews with both internal and external commodities to extract 100+ files to centralize our data
• Improved operation processes by developing an automation using Python, Pandas, and SQL that transfers 100+ files from Microsoft Excel into unique SQL Database tables, avoiding labor when generating reports, increasing efficiency by 80%
• Met with stakeholders to define project requirements and expectations making sure it aligns with the company's objectives
• Became the liaison of two technical commodities to manage dashboards and to assist with operational programs
• Assisted with sourcing strategies by creating compelling product presentations to support the decision making of excessive parts worth $150 million and presented to key stakeholders
• Created Supply and Demand dashboards using PowerBI, enhancing reports analysis and accuracy for informed decisions
• Streamlined teams data flow by cleaning several files of data into one standardized sheet to support automation projects

PwC
Non-Profit Consultant Extern   Kansas City, MO
                                                                                                  Sep 2023 – Nov 2023

• Learned about the strategic consulting process and how to help create value for a nonprofit or social justice organization based on their vision and mission
• Analyzed complex problems ranging from development, stakeholder management, impact measurement, as well as use consulting frameworks to help identify problem areas and propose solutions
• Learned to gather, analyze, and visualize data to inform problem areas and possible solutions

LEADERSHIP EXPERIENCE

National Society of Black Engineers (NSBE)
Finance Chair   Kansas City, MO
                                                                                                  May 2024 – Present

• Manage all transactions made including but not limited to campus events, travel expenses, and donations
• Collaborated with sponsors and donors to support campus initiative and NSBE missions and values increasing funding by 20% for the upcoming school year
• Collaborated with internal team members to ensure event management, budgeting trajectory, and financial status

Federal Reserve Bank of Kansas City
Student Board Member   Kansas City, MO
                                                                                                  Oct 2023 – Apr 2024

• Selected as one of 30 to participate in workshops, panels, and collaborative events to learn more about the role the Federal Reserve plays in our country
• Collaborated with business leaders to learn more of our economic activity by identifying, analyzing, and applying
• Became knowledgeable citizen by increasing my understanding of economic, financial and occupational topics
